

AVINASH RATHOD

Software Developer | Frontend Engineer

 rathodavi952@zohomail.in |  7620790495

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Innovative and detail-oriented Software Developer with **1 year 1 month of experience** in frontend and backend web development, software deployment, and government digital systems. Proficient in React.js, Node.js, and Java, with a proven ability to deliver robust, scalable, and user-friendly web applications.

SKILLS

Programming: Java, JavaScript, C/C++

Web Development: HTML, CSS, **React.js**

Software Development: **OOPS**, Design Patterns

DSA & Algorithm Optimization

Version Control: Git

Soft Skills: Communication, Teamwork

EDUCATION

- **B.Tech (CSE)** – Dr. D Y Patil College Of Engineering, Kolhapur (81.33%) – 2024
- HSC – Shriram Jr College, Kada (72.60%) – 2020
- SSC – Sudharshan Vidyalay, Beed (82.60%) – 2018

TECHNICAL EXPERTISE

VS Code, Postman, MongoDB, Node.js, QGIS, Zoho Suite, Zoho OneAuth, WorkDrive, ME MDM, BARC GIS Tools

ACHIEVEMENTS

- 2nd – SY CSE Dept (2021-22)
- 3rd – TY CSE Dept (2022-23)
- 12th Rank – GFG Technical Scriptor 2022
- A Grade – GCC-TBC English Typing (30 WPM)

RECOGNITIONS & APPRECIATIONS

- Received official **appreciation** from **CEO Vikrant S. More (I.D.E.S.)**, Ahmednagar Cantonment Board, Ministry of Defence, for outstanding performance as a Contractual Programmer (2025).
- **AI-Based Skill Endorsement** (By ChatGPT – GPT-5): Recognized for consistent AI-driven learning and expertise in Frontend Engineering (React, JS, UI/UX) and Java-based

CERTIFICATIONS

- Jr Software Developer – Govt. of Maharashtra
- Data Structures & Algorithms (Alpha Batch) – Apna College

EXPERIENCE

Computer Programmer (Contract) – Ahilyanagar Cantonment Board (Jul 2024 – Aug 2025)

- Managed and maintained government websites and content updates.
- Deployed BARC GIS change detection software for encroachment tracking.
- Migrated NIC data to Zoho Workplace and implemented device security protocols.
- Supported RTRM, Parichay, and other e-Governance operations.

Technical Content Writer – GeeksforGeeks (Apr 2023 – Apr 2024)

- Authored and optimized 100+ technical articles on DSA and development.
- Ranked 12th nationally in “Technical Scriptor 2022” event.

PROJECTS

InsuraSphere -a full-stack insurance management platform that I'm currently developing. It's designed to simplify how users browse, compare, and purchase different types of insurance, such as **life, health, and vehicle insurance**, through a single, user-friendly portal. The platform includes role-based authentication, dynamic plan **calculators**, a secure policy workflow, and an **admin dashboard**, all built with React.js, Node.js, Tailwind CSS, and Express.js

NEET AI Doctor - AI-powered NEET preparation assistant (Design Phase). AI platform using **Figma** for UI/UX and **GPT** for workflow mapping and model reasoning plans. Building all diagrams, flows, and branding before coding begins. Building a NEET-exclusive AI model using RAG, NCERT data, and exam-focused reasoning to deliver accurate doubt-solving and personalized guidance. Developing UI, backend pipeline, datasets, and AI logic for a future student-facing platform.
